SUMMARY

Computer Science undergraduate with a deep-seated passion for problem-solving. I leverage hands-on experience in Java, Python, mobile app development, and data science to deliver impactful solutions for real-world challenges. I have a proven record of building scalable projects and am driven by my interests in machine learning, full-stack development, and open-source advocacy.

EDUCATION

Maharaj Vijayaram Gajapathi Raj College of Engineering, Vizianagaram
B.Tech in Computer Science and Engineering
CGPA: 8.92

Nov 2022 – Present

PROJECTS

Therapy Chatbot

Jan 2025 – May 2025

Cohere API, Python, HTML/CSS, Flask

- Built a web-based NLP chatbot with sentiment analysis tailored to mental health.
- Served 5+ users during beta; achieved a 4/5 average satisfaction score.
- Addressed depression, loneliness, and trauma via intelligent response handling.

Sky Stream

Feb 2025 – Mar 2025

Kotlin, Android Studio, Google Drive API

- Android app to stream videos directly from Google Drive links.
- Implemented secure access and seamless UX; reduced buffering by 15%.

Digitalized Finance

Oct 2024 – Nov 2024

HTML, CSS, JavaScript, PHP, MySQL

- Developed a web banking system simulating real-world transactions.
- Improved practical learning efficiency by 50%.

ATM System

Mar 2024 – Apr 2024

Java Swing, JDBC, MySQL

- Designed a GUI-based ATM management system in Java.
- Handled user authentication, balance checks, deposits, and withdrawals.

VOLUNTEERING

Swecha (Volunteer)

Apr 2024 – Present

- Led 2+ workshops on WordPress, UI/UX, and no-code tools.
- Promoted Free and Open Source Software (FOSS) at 3+ tech events.
- Mentored 100+ participants in open-source development.

SKILLS

Programming Languages: Java, Python, C, C++, PHP

Web Development: HTML, CSS, JavaScript (Beginner), React (Basic)

Algorithms & DSA: Arrays, Linked Lists, Trees, Graphs

Mobile Development: Android (Java, Kotlin – Jetpack Compose)

Machine Learning: LLMs, NLP, Data Analysis, LangChain, Flask

Frameworks & Libraries: Flask (Python), React (basic)

Database: MySQL

Tools: Git, GitHub, VS Code, Android Studio

CERTIFICATIONS

Problem Solving – HackerRank

Python Programming – NPTEL

Java Programming – HackerRank

C Programming – NPTEL

SQL – HackerRank

AWARDS

Runner-Up , Avishkaar Hackathon

Dec 2024

AITAM College

- Selected among 50+ teams for developing an innovative prototype.
- Won a cash prize of Rs. 1,00,000 for novelty and real-world impact.

NLP Challenge

Jan 2025

IIT Kharagpur

- Built a chatbot for mental health support.
- Targeted depression and loneliness; supported 80% of test users.
- Selected among the top 200 finalists in a nationwide innovation challenge
